

# I JETVAC SD 12

The New JETVAC SD Generation

The JETVAC SD 12, the latest generation of our JETVAC SD family, is a powerful all-rounder. It is versatile, robust, offers excellent suction power and holds up to 12 litres of dirt and dust in its container. A fleece dust bag and the accessory set, consisting of a crevice nozzle, upholstery nozzle and a suction brush, are already included as standard. The same applies to the main filter basket, which also allows operation without a filter bag due to its optimal dust separation.

Optionally, the JETVAC SD 12 is available with a HEPA 13 filter. The JETVAC SD 12 D model can also be networked via our EGGSTACY software. With the JETVAC SD 12 D, the HEPA 13 filter is even included as standard.

(model SD 12 D, item no. 176 12 01  
not shown)

## Areas of application

- \_ Ideal for maintenance cleaning of textile floor coverings
- \_ Suitable for dry pre-cleaning of hard floors
- \_ Possible applications in offices, hospitals, hotels, restaurants, shops, etc.

## Your advantages

- \_ Integrated cable storage
- \_ Permanently high suction power due to optimised airflow
- \_ Low noise level: 62 dB(A)
- \_ Ergonomic power button
- \_ Comprehensive standard equipment
- \_ Replaceable power cable (screwed)

# I JETVAC SD 12

The New JETVAC SD Generation

With 700 W of input power and a 6-filter system, our JETVAC SD 12 generates a vacuum of 22 kPa and ensures consistently good suction power even with a well-filled dust bag. Two rubberised wheels and two swivel castors ensure smooth running and outstanding manoeuvrability. The low centre of gravity of this vacuum cleaner also makes it very tilt-resistant.

The JETVAC SD 12 is also extensively equipped:

- \_ Filter basket
- \_ Motor protection filter
- \_ Fleece dust bag (1 piece)
- \_ Combination floor nozzle
- \_ Crevice nozzle, upholstery nozzle and suction brush
- \_ Telescopic suction tube
- \_ Manifold with false air slide
- \_ 2 m suction hose
- \_ 12 m power cable in signal yellow

We also offer the following optional accessories for the JETVAC SD 12:

- \_ Hard cover nozzle  
**Art.-No.** 176 99 32
- \_ Pack of 10 fleece dust bags (12)  
**Art.-No.** 176 12 12

- \_ Turbo floor nozzle  
**Art.-No.** 176 12 35
- \_ HEPA-13-Filter  
**Art.-No.** 176 12 13
