

ALLWAYS DISPOSABLE MOP

Disposable velcro mop for spot cleaning or maintenance cleaning of small areas up to 10 m²

The ALLWAYS disposable mop is the quick problem solver for maintenance cleaning of small floor areas up to 10 m² and for spot cleaning. With a 40 cm working width, it cleans effectively due to its excellent dirt pick-up and area performance. A lack of washing logistics no longer plays a role with ALLWAYS. The unimpregnated, lightweight mop is quickly ready for use with the pre-wash method. The consumption of cleaning solution is low and heavy presses are unnecessary.

A specially developed barrier loop foil fixes the ALLWAYS disposable mop to the velcro mop holder and prevents contamination of the mop holder. This prevents the spread of germs.

Whether for smooth or lightly textured floors, this disposable mop always provides excellent dirt pick-up while maintaining the usual VERMOP quality and sustainability.

Code : 185180001

Dimensions: 42 x 13 cm

Working width: 40 cm / 16" Inch

Weight: ± 11,5 g

Packaging unit:

- 10 pieces folded in transparent bags
- 20 bags in carton (200 disposable mops)

Accompanying accessories:

- Code 1851830: Softpad for ALLWAYS, 42 cm
- Code 10204: Scandic Mono holder, 40cm
- Code 1890005: Scandic X telescopic handle
- Code 18917040: Adapter for Scandic Mono holder
- Code 18502: Measuring cup 2000 ml

Areas of application

- For damp and wet cleaning in spot and maintenance cleaning of small areas up to 10 m²
- Level of dirt: low to medium
- For smooth or slightly structured floors, tiles, hard floors, elastic floors
- Application in hygienically sensitive areas such as hospitals and old people's homes or offices, shops, sanitary facilities, pantry kitchens, schools, day-care centres, reception areas, etc.
- Suitable for pre-wash folded in bucket

Your advantages

- For buildings without washing logistics or very small area's
- A film layer prevents contamination of the mop holder with dirt and/or germs
- Quick preparation and easy handling
- Up to 98%* water savings compared to reusable
- Up to 35%* CO2 saving compared to reusables
- Simply dispose of after use with normal commercial or household waste
- 100% recyclable, Made in the EU

* Using the example of the annual consumption of an 80 m² shop without washing logistics with daily floor and surface cleaning from Mon.-Fri.

ALLWAYS DISPOSABLE MOP

Disposable velcro mop for spot cleaning or maintenance cleaning of small areas up to 10 m²

Application

Pre-wash (soak) in the bucket:

- Place the unpacked disposable mop upright in a bucket with the folded edge facing downwards (see filling quantity below).
- Pour the cleaning solution evenly over the mop (see dosage maintenance cleaning below).
- Let the disposable mop with the cleaning solution soak in the bucket for 5 minutes.
- Take the disposable mop out of the bucket and lay it flat on the floor.
- Place the Scandic Mono velcro holder with soft pad on the mop and press down briefly.
- Without detaching the mop from the handle, apply a trail of water and start cleaning.
- After cleaning, remove the disposable mop manually from the soft pad via the fixing layer and dispose of it.

Product performance

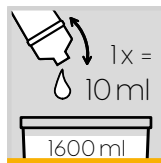

Surface performance	Up to 10 m ²
Suitable buckets	Equipe 6 l and 8 l, Shopster 8 l
Filling quantity per bucket (recommendation)	- Bucket 6 l : 50 mops - Bucket 8 l : 70 mops

Dosage maintenance cleaning

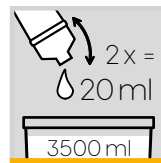

10 mops (1 bag)

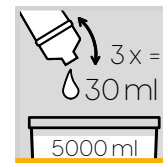

20 mops

50 mops (1 bucket filling 6 l)

70 mops (1 bucket filling 8 l)

1-2 splashes = approx. 5 ml; 1000 ml = 1 l

The specified dosage and solution quantity are guide values and depend on the soiling and use in individual cases. They refer to a medium degree of soiling. We recommend our VERMOP dosing head.

Product characteristics

Product category	Floor cleaning
