TURNADO 55 PRO

The all-rounder with a membrane tank

This scrubber drier significantly reduces the required cleaning time. Hard-to-reach areas that previously had to be cleaned manually – for example, corners and niches – can now also be cleaned mechanically. The scrubbing suction head of the TURNADO 55 machine, which can be rotated by up to 360°, ensures that there are no longer any differences in cleaning results between main and secondary areas. Even when reversing, the scrubbing and suction head automatically rotates in the direction of travel. The high-quality stainless steel chassis comes with a 10-year warranty.

The TURNADO 55 series is also available in two different version with a plastic tank.

Areas of application

- Can be used for almost any application:
  - Shops, salesrooms
  - Bakeries, etc.
- Generally hygiene-sensitive areas:
  - Hospitals and nursing homes

Your advantages

- Easy operation and handling
- 360° rotatable brush head (enormous manoeuvrability and flexibility thanks to TURNADO technology)
- Available with maintenance-free GEL battery or powerful Lithium-FePO4 battery
- Longer usage times due to larger tank volume (for PRO version)
- Easily reach corners and niches when cleaning thanks to TURNADO technology
- Extreme manoeuvrability due to compact design

TURNADO 55 PRO

The all-rounder with a membrane tank

The TURNADO 55 PRO ensures that there are no longer any differences in cleaning results between main and secondary areas, as TURNADO technology allows even corners and niches to be reached by the machine. Even when reversing, the head automatically rotates in the working direction, ensuring water application, cleaning, and suction can proceed in the correct sequence.

Technical data

Working width brushes:	550 mm	Theoretical cleaning performance	2.475 m²/ h
Working width suction bar:	680 mm	Brush diameter:	285 mm
Dimensions (LxWxH)	920 / 408 / 1150 mm	Brush contact pressure (brush/pad):	2,2 N/0,5 N/cm²
Clearance width:	670 mm	Noise level:	75 dB / 69 dB BlueSave
Tank volume (fresh/Dirty water):	see below	Traction motor:	110 Watt
Working time per battery charge:	up to 2,5 h	Brush motor:	2 x 190 Watt
Max. driving speed:	4,5 km / h	Vacuum motor:	500 Watt
		Max. water supply:	3,5 l / min
Gel battery, maintenance-free:	24 V, 105 Ah	Dead weight (incl. Gel battery):	172 kg
LiFePO4 battery:	24 V, 100 Ah	Dead weight (incl. LiFePO4 battery):	167 kg
Gel battery weight:	2x 37,5 kg		
LiFePO4 battery weight:	2x 12 kg		

The TURNADO 55 is available in the following versions (also with optional networking in each case):

TURNADO 55:	with 45 l fresh and dirty water plastic tank
TURNADO 55 SV:	with 45 l fresh and dirty water plastic tank as a special swimming pool version
