

TURNADO 45

Compact & Efficient

The TURNADO 45 is the big brother of our TURNADO 35 model. The TURNADO 45 is also equipped with a powerful and fast-charging lithium-ion battery, but with twice the capacity. It also has a working width of 45 cm and therefore offers even more area coverage per hour. Of course, the TURNADO 45 also uses our TURNADO brush head, which can be rotated by +/- 200°.

Application areas

- _ Medium sized stores and kitchens
- _ Cramped and obstructed storage areas
- _ Vehicle workshops
- _ Sales rooms such as bakeries
- _ Changing rooms and rest rooms

Your advantages

- _ Simple operation and handling
- _ Brush head can be rotated by +/- 200° due to the unique TURNADO technology
- _ Immediately walkable surfaces thanks to direct dirty water extraction (cleaning possible during business operations)
- _ Effective roller brushes and variable contact pressure
- _ Powerful lithium-ion battery, completely maintenance-free, deep discharge protection

I TURNADO 45

Compact & Efficient

The TURNADO 45 is slightly taller and, with its 2-tank system, holds 10 l more than its little brother, the TURNADO 35. Nevertheless, the TURNADO 45 is extremely agile and therefore easy to maneuver. With the unique TURNADO technology, the roller also cleans in reverse. The suction bar mounted straight behind it collects the dirty water again, also when reversing.

Technical data

– Working width brush:	450 mm	– Brush diameter:	96 mm
– Working width suction bar:	550 mm	– Brush contact pressure:	150 g / cm ²
– Dimensions (LxWxH):	970 / 530 / 1115 mm	– Noise level:	67 dB
– Fresh water tank volume:	22 l	– Input power:	550 Watt
– Dirty water tank volume:	22 l	– Max. water application:	1,4 l / min
– Theoretical cleaning performance:	1.800 m ² /h	– Lithium-ion battery:	25,2 V, 44 Ah
		– Battery weight:	2x 3,8 kg
		– Dead weight incl. battery:	48 kg

You can find further information about the model in our catalogue or at www.vermop.com/en/power.
