THE ALLWAYS DISPOSABLE PRODUCTS

High-quality disposable textiles for efficient cleaning with a safe and reliable process!

Disposable textiles (i.e. single-use mops and cloths) are becoming increasingly important in the professional cleaning sector. In addition to hygienic cleaning that prevents the spread of germs, disposable textiles are also facing increased costs in terms of energy and materials, while also

struggling with the chronic shortage of skilled workers. ALLWAYS disposable, single-use textiles enable economical professional cleaning where reusable textiles would not be cost-effective, thus representing a valid alternative.

REASONS FOR USING DISPOSABLE TEXTILES

- No washing or transport logistics
- Very small areas and items
- Emergency / backup plans for hospitals and nursing homes
- Requirement for spot cleaning or disinfection
- Rapid and spontaneous cleaning when under time pressure
- Multiple, small, hygiene-sensitive cleaning areas with a max. size of 20 m²

WE OFFER THE FOLLOWING PRODUCTS FOR THESE TASKS UNDER OUR DISPOSABLE BRAND, ALLWAYS:

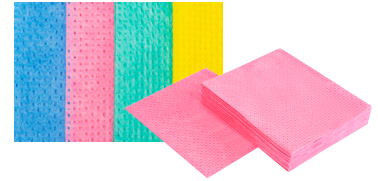

ALLWAYS disposable mop for Scandic Mono
up to 10 m²

High-quality disposable Velcro mop for spot and routine cleaning, damp or wet

ALLWAYS PRO Microfibre disposable mop for Scandic Mono, up to 20 m²

High-quality universal microfibre disposable Velcro mop for spot and maintenance cleaning, damp or wet

ALLWAYS disposable cloths in the four colours blue, red, green, yellow

The all-rounder for use in medical facilities / key items / canteens

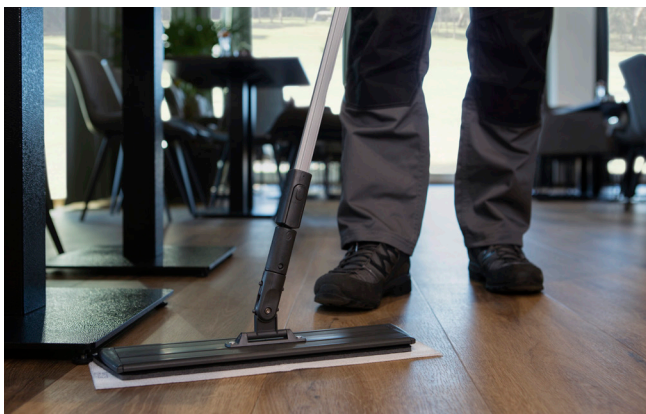

Our ALLWAYS disposable mop covers and cloths are used for wet and damp cleaning. Our products comply with the hygienic standards required by hospitals and care facilities while maintaining the consistent VERMOP quality and sustainability.

The mop covers are available in two performance versions:

- The blue ALLWAYS mop is perfect for spot cleaning and can clean a floor area of up to 10 m².
- The white ALLWAYS PRO mop can be used for floor areas up to 20 m². ALLWAYS PRO eliminates over 99% of micro organisms without the use of chemical cleaning agents (certified in accordance with EN 16615:2015).

ALLWAYS disposable cloths are available in the four basic colours blue, green, yellow and red, and clean smooth surfaces quickly and thoroughly.

The use of ALLWAYS disposable textiles not only saves time, but also resources that would otherwise be required for washing and logistics. At the same time, the volume of water and cleaning solutions required for cleaning tasks can be reduced. ALLWAYS therefore offers a number of environmental benefits for use in the corresponding areas, which help save resources and reduce the carbon footprint.

ALLWAYS DISPOSABLE TEXTILES FROM VERMOP ARE A PERFECT COMBINATION OF SUSTAINABILITY AND EFFICIENCY

The resource-saving cleaning of small areas becomes a reality with ALWAYS disposable textiles. ALWAYS meets the most stringent demands for product quality and environmental protection. The products significantly minimise the consumption of energy, water and cleaning chemicals and are extremely quick to equip. Work tasks are facilitated with great improvements in terms of ergonomics. ALWAYS disposable textiles offer a modern, hygienic and environmentally friendly solution.

- Excellent and consistent cleaning performance
- Ideal for use in hygienically sensitive areas
- CO₂ savings potential for items without their specific washing logistics
- Disposable mop: 3-layer Velcro mop with foil layer for excellent soiling removal and protection of the mop holder from dirt and germs
- ALWAYS PRO: removes >99% of micro organisms with water alone (certified in accordance with EN 16615:2015)
- 100% recyclable and manufactured in the EU

SAVE COSTS AND TIME WITH ALWAYS

ALWAYS disposable textiles enable a significant reduction in resources, time and increased process reliability. Environmentally friendly and cost-effective (no washing, less transport)

ADVANTAGES WITH ALLWAYS DISPOSABLE CLEANING

For the cleaning staff (up to 25% time saving):

- Excellent soiling removal and performance over the cleaning area
- No time-consuming equip and disassembly time (reduced equip time)
- Minimal error margin during application
- Easy to use
- Labour-saving application with quick and efficient preparation
- Lightweight mop
- Minimal cleaning fleet to transport and no press required

For the shop owner / manager

(cost savings + 35% reduction in CO₂ emissions):

- Perfect cleaning results at all times and a clean, attractive look
- Economical (savings in material and costs)
- Reduced consumption of resources and energy (up to approx. 35% cut in CO₂ emissions)

Case study*: potential average annual saving of up to 25% of the equip time and up to 25% of the costs (disposable mop or disposable cloths):

- up to approx. 25% reduction in costs compared to reusable products*
- up to approx. 25% savings with the equip time*
- up to approx. 98% cut in water consumption compared to reusable products*
- up to approx. 35% lower CO₂ emissions compared to reusable products*

(*) Using the example of the annual requirement of a store surface area of 80 m² with no washing logistics with daily floor and surface cleaning from Monday-Friday.

VERMOP – A STRONG PARTNER BY YOUR SIDE

VERMOP is one of the leading international manufacturers of products, systems and solutions for professional cleaning. Our traditional brand can look back on over 95 years of experience and is part of Freudenberg Home and Cleaning Solutions since 2023.
