

| A STRONG PARTNER BY YOUR SIDE

Welcome to the professional cleaning specialist. VERMOP represents high-quality professional products and modular cleaning systems that are innovative, highly reliable and long-lasting.

ADVANTAGES FOR YOU AT A GLANCE

Everything from a single source

As a system provider, you get everything from a single source, from all cleaning tools and machines to networked software. One contact partner. One service.

Everything up to date

The system solutions from VERMOP are continuously being developed further and correspond to the latest findings in terms of ergonomics and hygiene, such as the new generation of buckets, which is 100% wipe-disinfectable.

Sustainable and digital

In addition to 100% natural electricity in our factories we already use more than over 70% of our plastics recycled materials.

Mop covers and other products are increasingly made from recycled materials. Our portfolio of networked products is also growing, which are almost unbeatable in terms of efficiency and transparency thanks to our clever software solution.

VERMOP is one of the leading international manufacturers of products, systems and solutions for professional cleaning. Our traditional brand can look back on over 95 years of experience and is part of Freudenberg Home and Cleaning Solutions since 2023.

Our corporate commitment to quality has been certified in accordance with ISO 9001 for 20 years, and we demonstrated our commitment to environmental issues when we received the ISO 14001 certification eight years ago. Simply closer: we provide a personal service which is available to you throughout Europe. Our sales representatives will provide onsite, professional and customer-oriented advice at any time.

VERMOP – THE NO. 1

of networked cleaning tools
