SCANDIC X SYSTEM

a brand of FREUDENBERG

THE SCANDIC X SYSTEM

The typical cleaning trolley carries numerous pieces of additional cleaning equipment. No norms apply with regards to their attachment to the handle. Various systems make it necessary to carry a range of handles on the trolley. This gives rise to costs, affects the tidy appearance of the trolley and harbours the danger of damage to the premises. With the Scandic X system from VERMOP, these everyday problems are a thing of the past. The Scandic X telescopic handle can be adjusted simply to various working heights, from 80 cm length for mirror cleaning to 171 cm for overhead work.

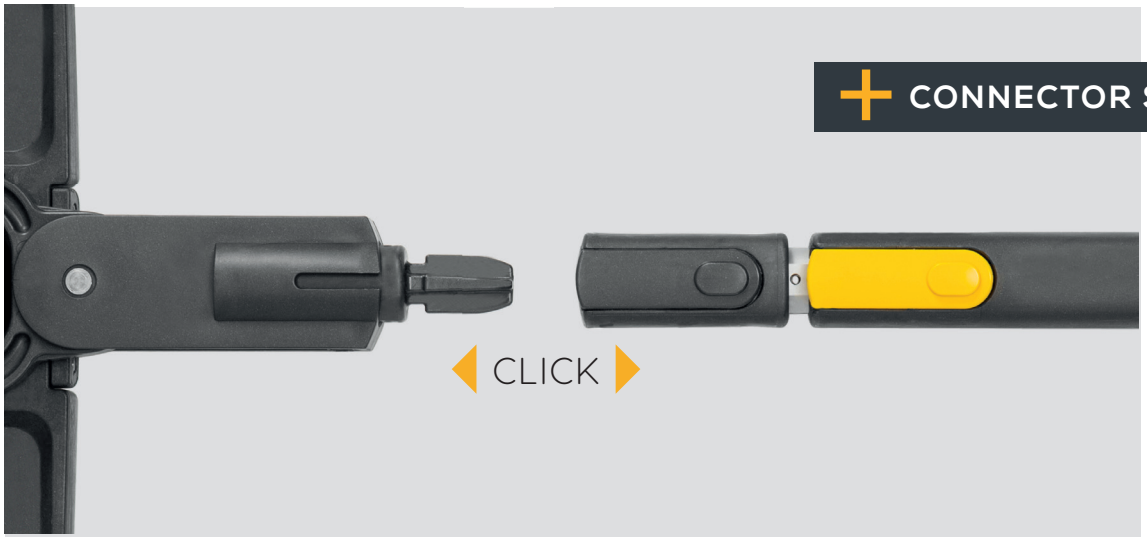

With the unique Scandic X connector system, all VERMOP appliances, and accessories from all major manufacturers, can be attached to the handle simply and securely. Compactly retracted, it is stored tidily in the Scandic X toolbox. The toolbox offers flexible attachment for all appliances for floor and surface cleaning, and disappears neatly into the Equipe cleaning trolley.
Allow yourself to be convinced by a general solution that sets new standards in manual cleaning.

COMPONENTS

THE SCANDIC X TELESCOPIC HANDLE

THE X-TREME MODEL

One handle for everything: with just the push of a button, the Scandic X telescopic handle can be set to the right working length without tiresome twisting. From 80 cm to 171 cm, you adapt it quickly and easily for work close up, such as cleaning mirrors, for floor cleaning and for tasks at height.

THE UNIVERSAL MODEL

Maximum flexibility: with the Scandic X connector system, all the VERMOP cleaning appliances can be attached to the Scandic X telescopic handle. At the same time, the system offers numerous adaptors for attaching the appliances of all major manufacturers.

ADAPTER

VERMOP offers adapters for most conventional attachment systems, e.g. screw attachments in various diameters, Pinocchio connections or screw threads.

THE SCANDIC X TOOLBOX

| TOOL SETS

With the Toolbox, you always have the right utensil to hand onboard your cleaning trolley. Thanks to the flexible and spacesaving attachment, you can accommodate all the equipment you need, for example for sanitary cleaning.

We would be pleased to advise you about kitting out the ideal toolbox for your area of work.

EASY ACCESS STORAGE AT A GLANCE

Space miracle

Efficiency

- For space-saving transport:
  The Scandic X toolbox can be pulled out of the Equipe cleaning trolley in just one move.
- It offers flexible attachment options for all your cleaning equipment.
- During transport, it also accommodates the Scandic X telescopic handle which disappears neatly into the trolley.
- Transporting chemicals:
  The shelf above the toolbox offers space for safe transport of up to five-bottles of cleaning chemicals.

| ERGONOMICS

We appreciate that our employer, Dorfner, provides us with professional equipment for our work and cares about our health.

Ergonomics

"In the past, I had recurring painful problems with my wrists. Since I have been working with the Scandic X telescopic handle with its rotating ball, this is no longer an issue. My wrists have been able to recover."
Claudia Schmitt

"With the Scandic X System, I finally have all the equipment that I need on a daily basis neatly stowed on the cleaning trolley. And only one mop handle whereas before I had two or three. And should there be something unscheduled to clean – no problem since I have everything on board."
Carmen Horn

Inflammatory diseases of the wrist, which in extreme cases can lead to carpal tunnel syndrome, are by now a recognized medical condition in professional cleaning. According to estimates, 48 % of female employees are affected*.Cause is a pressure damage of the nerves, conditional upon a constrained posture while wiping with conventional mop handles.

The Scandic X telescopic handle with its rotating ball offers a remedy. It enables a steady posture and therefore relief of the upper hand while mopping. Joints which have been strained for a longer period of time have a chance to recover. Scandic X – an investment into you employees' health that will pay off very quickly.

BENEFITS

Ergonomics

Efficiency

Ergonomic
The Scandic X system is designed for ergonomic work in particular. The easy adjustment of the handle without tiresome twisting permits the selection of the optimum position for every work step.

Stable and durable
The Scandic X is made of high-quality material for a long service life; it is twist-free and has a high resistance to bending.

Easy on the joints
The rotating ball on the handle ensures that the wrist remains stable when mopping. Possibly harmful movement sequences are avoided and long-term joint conditions such as carpal tunnel syndrome prevented

VERMOP – A STRONG PARTNER BY YOUR SIDE

VERMOP is one of the leading international manufacturers of products, systems and solutions for professional cleaning. Our traditional brand can look back on over 95 years of experience and is part of Freudenberg Home and Cleaning Solutions since 2023.
