

# I TURNADO 35

Agile, light, quiet

A scrubber dryer with a fast-charging, high-performance lithium-ion battery, rotating brush head and TURNADO roller technology. If the mop is continuously dipped into the same, already dirty water, the soiling on the floor is merely constantly redistributed. However, the TURNADO 35 uses fresh water for every centimetre to make cleaning never so easy and so much fun.

## Application areas

- Smaller retail spaces
- Kitchens
- Narrow and obstructed storage spaces
- Motor vehicle workshops
- Hotel / office entrance areas
- Sales areas and showrooms
- Changing rooms and restroom facilities
- and many more

## Your advantages

- Easy use and handling
- Brush head can be rotated by +/- 200°
- Powerful lithium-ion battery, totally maintenance-free
- Immediately accessible surfaces thanks to direct dirt extraction (cleaning possible during business hours)
- Particularly quiet

# I TURNADO 35

Agile, light, quiet

Thanks to its compact design, the TURNADO 35 is ideal for handling and utilizing cluttered areas. It features variable contact pressure and offers easy service access. To protect the brushes, the machine features a parking position that raises them when stationary.

## Technical data

— Working width brush:	350 mm	— Brush diameter:	96 mm
— Working width suctionbar:	450 mm	— Brush contact pressure:	150 g / cm
— Dimensions (LxWxH):	930 / 1100 / 420 mm	— Noise level:	65 dB
— Fresh water tank volume:	12 l	— Input power:	500 Watt
— Dirty water tank volume:	12 l	— Max. water application:	0,85 l / min
— Theoretical cleaning performance:	1400 m²/h	— Lithium-ion battery:	25,2 V, 22 Ah
		— Battery weight:	3,8 kg
		— Dead weight incl. battery:	35 kg
