

The LIQUID product range

Safety

QR code to increase safety at work
Simply scan the QR code and download the EU safety data sheet.

Environment

Waste reduction
Reduction in the volume of waste by around 80% thanks to folding refillable bag.

POWERFUL PRODUCTS

When developing our VERMOP liquids, we took into account both the most cutting-edge cleaning technologies and the latest environmental considerations.

Simply, logical dosing

Innovative dosing insert for the VERMOP 1-litre bottle; tip the bottle up once to measure out 10 ml; for moderate or heavy soiling, simply tip the bottle up two or three times.

Clear labelling

Simple, understandable presentation of the areas of application, how to use the product and the dose using clear pictograms

Safe use

The triangular VERMOP bottle fits comfortably in your hand and offers a secure grip, even with wet gloves.

YOUR ADVANTAGES

- Active ingredients from renewable raw materials
- Awarded the EU Ecolabel
- Non-toxic product line for maintenance cleaning
- Very good cleaning performance while also very gentle on materials

VERMOP NATURAL PRODUCTS

VERMOP
goes green

The VERMOP ECO products are our line of cleaners that have been developed based on renewable raw materials. It combines sustainability, effectiveness and biodegradability, thus helping to implement your ecological business concept.

Our VERMOP Nature products are part of a closed cycle, which starts and ends with an intact environment. As a result, we have used active ingredients from renewable raw materials to develop highly effective cleaners, which we manufacture in Germany. We advise you on the environmentally responsible use of our products for daily cleaning. At the end, the products biodegrade easily, thus closing the cycle.

VERMOTOP ECO

- Coconut oils are pressed from coconuts and processed into surfactants

▶ To remove different types of soiling

VERMOUNI ECO

- With alcohol made from wheat
- Wheat grains are ground, broken down by enzymes under heat and fermented

▶ To remove grease

VERMOSAN ECO

- With citric acid, one of the most widespread plant acids
- Plant-based raw materials are mixed with active microorganisms and citric acid is formed via precipitation

▶ To remove mineral deposits, such as limescale

VERMOP – A STRONG PARTNER BY YOUR SIDE

VERMOP is an internationally leading manufacturer of products, systems and solutions for professional industrial cleaning. The traditional, owner-operated family business is now managed by the third generation of the family and can look back on over 90 years of experience. The headquarters of VERMOP are located in Gilching near Munich, Germany.

Our company's commitment to quality has been certified according to ISO 9001 for 20 years, while our engagement with environmental concerns has been certified according to ISO 14001 for eight years. Simply closer: Our Service department is on hand to help you in person throughout Europe. Our sales representatives will help you on site at any time with professional and customer-oriented advice.

SUSTAINABILITY

Protect valuable resources with VERMOP

Environmentally friendly

VERMOP ECO and BIO products with renewable and natural raw materials

Production in Germany

Certified and transparent

Recyclable

All containers can be recycled after use
