

I JETVAC SD 7

The New JETVAC SD Generation

The JETVAC SD 7 is the affordable entry-level model of the new JETVAC SD generation and offers excellent value for money. At just 3.5 kg, this dry vacuum cleaner is a real lightweight. The container capacity is 7 litres.

A fleece dust bag is included as standard. The same applies to the main filter basket, which also allows operation without a filter bag due to its optimal dust separation.

Art.-No. 176 07 00

Areas of application

- Ideal for maintenance cleaning of textile floor coverings
- Suitable for dry pre-cleaning of hard floors
- Possible applications in offices, shops, small workshops, etc.

Your advantages

- Very low dead weight (3.5 kg)
- Permanently high suction power due to optimised airflow
- Low noise level: 63 dB(A)
- Excellent value for money
- Extensive range of accessories

I JETVAC SD 7

The New JETVAC SD Generation

With 850 W of input power, this compact dry vacuum cleaner generates a remarkable vacuum of 23 kPa and yet is pleasantly quiet at just 63 dB(A). Two fixed castors and two swivel castors ensure good rolling properties. A circumferential impact edge on the impact-resistant container also protects the surrounding fixtures.

The JETVAC SD 7 is also extensively equipped:

- Filter basket
- Motor protection filter
- Fleece dust bag (1 piece)
- Combination floor nozzle
- Two-part plastic suction tube
- 2 m suction hose
- 7.5 m power cable in signal yellow

We also offer the following optional accessories for the JETVAC SD 7:

- Hard cover nozzle
Art.-No. 176 99 32

- Pack of 10 fleece dust bags (7 l)
Art.-No. 176 07 07

- Accessory set (consisting of crevice nozzle, upholstery nozzle and suction brush)
Art.-No. 176 99 33

- Manifold with false air slide
Art.-No. 176 99 23
