

Textile Pads

Blue / White Magic / Brush

Application area

- Machine-assisted floor cleaning
- Suitable for different types of machines
- White Magic ideally suited for porcelain stoneware tiles
- Brush and Blue ideal for structured floors

VERMOP textile pads for machine-assisted floor cleaning are available in our three proven textile material qualities Blue, White Magic and Brush. Here too, you can place your faith in VERMOP quality. The VERMOP pads are distinguished by high performance and durability. An investment that pays off – with improved cleaning results.

All the pads feature a core of plush material for optimum water absorption and stability. The standard pads are made of textile material with good cleaning properties and are machine washable up to 60° C. The special fleece makes an optimal adhesion on the single disc machine.
